Dr. Ramin Tabib and Dr. Elisa Mello of NYC Smile Design are two of Manhattan's most respected and accomplished dentists. A husband and wife team, they have carefully designed their immaculate, contemporary practice

to incorporate the latest technological advances in dentistry in an atmosphere of understated elegance, warmth and efficiency. "Our goal is to integrate esthetics as part of total dental health to create an overall pleasing and cosmetically enhanced facial appearance," says Dr. Mello.

At NYC Smile Design, life changing and image enhancing treatment is quick and painless and can be done in as little as two visits. Advanced Cosmetic treatments include Smile Makeovers, laser bleaching, invisible braces and porcelain fillings.

Drs. Mello and Tabib have received many professional awards. Dr. Mello has been honored with the highest award in the field of periodontics, the Samuel Charles Miller award and her election to Omicron Kappa Upsilon, the Dental Society that recognizes the top 5% of the nation's dentists. Dr. Mello is also a Clinical Assistant Professor at NYU College of Dentistry in the Advanced Education Program in General Dentistry. Dr. Ramin Tabib is one of a handful of dentists worldwide who have been honored with fellowship to the International Congress of Oral Implantologists. He is passionate about dentistry and a leader in developing and mastering new technology. Dr. Tabib is also actively involved in the renowned Advanced Esthetic Program at New York University. As a result of their dedication to the field of cosmetic dentistry they have gained national and local recognition in the media. In July of 2002 Drs. Tabib and Mello were honored with the esteemed MDTV National Expert award, an award that recognizes a doctor's outstanding achievements in surgical mastery, procedure results and patient satisfaction.
